**ASSUMPTION OF RISK AND GENERAL RELEASE**

I have chosen voluntarily to participate in the HARVARD FIRST-YEAR OUTDOOR PROGRAM (the "Program"). ("Program" is understood to include all activities at destinations, and all travel to and from such destinations.) This agreement confirms my understanding of the following:

I understand that participation in the Program may involve risks inherent in traveling to, from, and within the Program destinations, as well as risks generated by the activities in which I engage while on the Program. I recognize that these potential risks include, for example, illnesses, injuries and even death. In particular, I recognize the unusual risks inherent in wilderness travel, including, for example, the potential difficulties and delays in obtaining medical aid when group participants are many miles from the nearest road or

source of assistance, as well as the risks presented by out travel involving, mountains, rivers, and lakes. These include, without limitation, the risk of sustaining injuries or death from falling, drowning, lightning, avalanches and rock-fall, severe allergic reactions, insect bites and stings, and harsh weather conditions. I have made my own investigation of these risks, understand these risks and assume them knowingly and willingly. I understand that, although President and Fellows of Harvard College (“Harvard”) has organized the Program, it cannot eliminate all risks or guarantee my safety while I am participating in the Program. I have made the independent judgment to participate in the Program and will take every precaution to safeguard my health during my participation.

I understand that it is my responsibility to alert Harvard if I have any allergies or other medical condition that may affect my participation in the Program. I authorize Harvard to obtain appropriate health care for me in the event that I need it but am unable to obtain it for myself. I further agree to hold harmless and indemnify Harvard for any and all actions taken by Harvard to provide necessary emergency medical care to me during the Program. I also understand and agree that if I experience serious health problems, suffer an injury, or am otherwise in a situation that raises significant health and safety concerns, then Harvard may contact my parents or any other person whose name I have provided as my “emergency contact.”

I agree to abide by all policies Harvard has put in place for the Program and to respect the authority of Program leaders and other Program officials at all times. I understand that violation of any such policies is grounds for my removal from the Program, and that I then would bear any additional travel or other expenses incurred as a result. In particular, I understand that possession or use of alcohol, firearms, fireworks, non-prescription drugs, and tobacco is prohibited during the Program. Other proscribed behavior includes diving, playing pranks, unauthorized rock-climbing, solo hiking or swimming, and any other activity Harvard Program leaders deem unwise or unsafe. I accept responsibility for my own behavior, and promise to act safely and responsibly at all times.

I understand that Harvard does not represent or act as an agent for, and cannot control the acts or omissions of, any transportation carrier, hotel, tour organizer or other provider of food, goods or services involved in the Program. I understand that Harvard is not responsible for matters that are beyond its control, and that it cannot warrant the safety or convenience of the circumstances under which I will be traveling or otherwise participating in the Program.

Knowing the risks described above, I agree, on behalf of my family, heirs and personal representative(s), to assume all the risks and responsibilities surrounding my participation in the Program. To the maximum extent permitted by law, I release, hold harmless and agree to indemnify Harvard, and its officers, directors, faculty, staff, representatives, employees and agents, from and against any present or future claim, loss or liability for injury to person or property which I may suffer, or for which I may be liable to any other person, related to my participation in the Program (including periods in transit to or from my destination), resulting from any cause, including but not limited to ordinary or gross negligence.

I certify that I am age 18 or older. I have carefully read and freely signed this Assumption of Risk and General Release. I understand and agree that no oral or written representations can or will alter the contents of this document. I agree that this agreement shall be governed by the laws of the Commonwealth of Massachusetts (excluding its conflict of laws principles), which shall be the forum for any lawsuits filed under or incident to this agreement or the Program.

**If the participant is under age 18**, the parent and/or legal guardian must sign below:

I, the undersigned parent and/or legal guardian of the participant listed above (the “Participant”), do hereby consent to his or her participation in the Program. I, as the parent of the Participant and on behalf of the Participant, release, hold harmless and agree to indemnify Harvard, and its officers, directors, faculty, staff, representatives, employees and agents, from and against any present or future claim, loss or liability for injury to person or property which I or the Participant may suffer, or for which the Participant may be liable to any other person, related to the Participant's participation in the Program (including periods in transit to or from the Participant's destination), resulting from any cause, including but not limited to ordinary or gross negligence.

**Part II . To Be Completed by Physician or Nurse Practitioner**

This entire medical form must be fully completed by a licensed health provider before participant may be cleared to participate in FOP Programs. Pursuant to AMA Code of ethics E-8.19, health provider may not be an immediate family member. The information on this form will be used to determine whether there are any medical issues that might preclude or limit the individual's ability to safely participate in FOP.

**TO THE EXAMINING PHYSICIAN OR NURSE PRACTITIONER**

- \* Physical examinations should include, without limitation: height, weight, BMI, blood pressure, resting pulse, general appearance (look for stigmata of Marfan's), heart (in particular, auscultation standing, supine; +/- femoral artery bruits), pulses (simultaneous femoral and radial pulses), lymph nodes, lungs, abdomen, skin (particularly for lesions suggestive of MRSA, tinea corporis), neurology, musculoskeletal system (neck, back, shoulder/arm, wrist/hand/fingers, hip/thigh, knee, leg/ankle, foot/toes).
- \*Participants in the Harvard First-Year Outdoor Program (FOP) will be traveling under their own power, often carrying loads of approximately 40-70 pounds, up and down steep mountain trails, six to ten miles a day for five days.
- \*FOP operates in remote areas where evacuation to modern medical facilities can take several days.
- \*Weather conditions can be unpredictable and extreme. Prolonged storms, high winds, intense sunlight, and sudden immersion in cold water are possible.
- \*On the basis of your knowledge of the individual's medical history and this examination, do you advise any limitations on participation in strenuous physical activities such as backpacking or canoeing? In your opinion, is there anything in his or her medical background that would preclude or limit participation in FOP?
- \*Does this patient have any cardiac conditions? As background, the American Heart Association recommendations on pre-participation examination of athletes is included here: Maron, B.T., et al., *Circulation*, 94: 850-6.
- \*Please be as specific as possible in explaining any such medical issues and the limitations they might require.
